## Biography

Rooted in vintage rock bands like Led Zeppelin, Black Sabbath and Aerosmith, Hollywood rock band Inside The Black brings a fresh, yet timeless take on rock music.

With an independent album release under their belts, and even a song covered by Hollywood nubile Leighton Meester ("Gossip Girl"), Inside The Black is an accomplished band looking to simply get more music out.

The band has performed throughout the Los Angeles area in such infamous venues as The Whisky A Go Go, The Cat Club, Dragonfly, and The Cobalt Café.

Inside The Black's self-titled debut album is available in both physical and digital formats from various distributors, including iTunes, eMusic, CD Baby and Amazon.com. Fans can also download the album for free when they provide an email address at <http://insidetheblack.bandcamp.com>. The CD was mastered by Ralph Rieckermann, former bassist for The Scorpions.

There is another album's worth of material being beaten up on stage and the band will soon enter the studio.
